PRIYA RUBBER INDUSTRIES.

Priya Rubbers commenced production of Rubber products in the year 1993 at Kochuveli, Trivandrum. Now PRIYA RUBBERS - Building Relationships. Delivering Quality. are one of the prominent and reliable organizations of the industry involved in Manufacturing and exporting a vast assortment of Moulds. We have established a highly advanced infrastructure unit. We adopt advanced instrumentation and process control measure for a manufacturing process of providing products which resulted into higher yield and optimum quality besides providing safer and cleaner environment for our work force.

Products are made through natural rubber and styrene- butadiene are enclosed in the mould cavity instead of a die and that can thus be made into complex and regular shapes.

Advantage of using mastication technology moulds

- Every mould has a protected step on the side to reduce the vulnerability of the mould
- No peels off of blacks from the mould
- Ease of cleaning up the mould
- Diluted acid solution can be applied while changing the colour mix
- No deformation of mould due to constant usage
- Because of measurement uniformity mould can be used combined with old and new

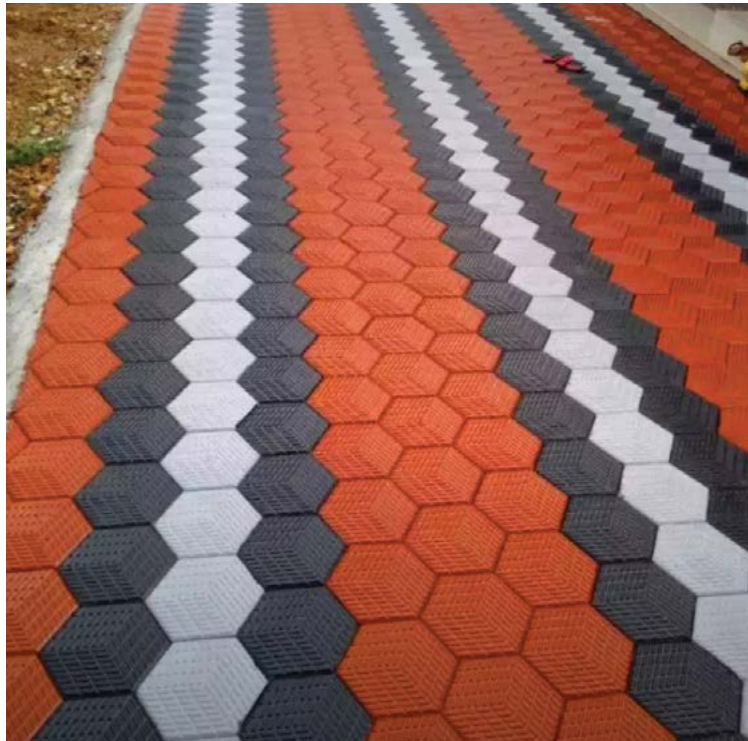

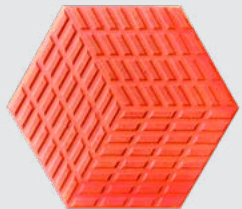

"We assure you that our rubber products are at par with global standards in our modern manufacturing facility, coupled with our versatile experience, gained over through our long journey of 25 years"

Comparison between PRIYA MOULDS and other types of moulds

Subject of comparison	Pvc mould	Ordinary Mould	Priya Moulds (Synthetic)
Long life	Average	Poor	Best
Esse of cleaning	Not required	Required	Not required
Staining	No	Yes	No
Measurement uniformity	Poor	Average	Good
Texture clarity	Good	Average	Excellent
Vulnerability	Medium	High	Low

3D SERIES

3D RAMBO
CODE: 3D 01

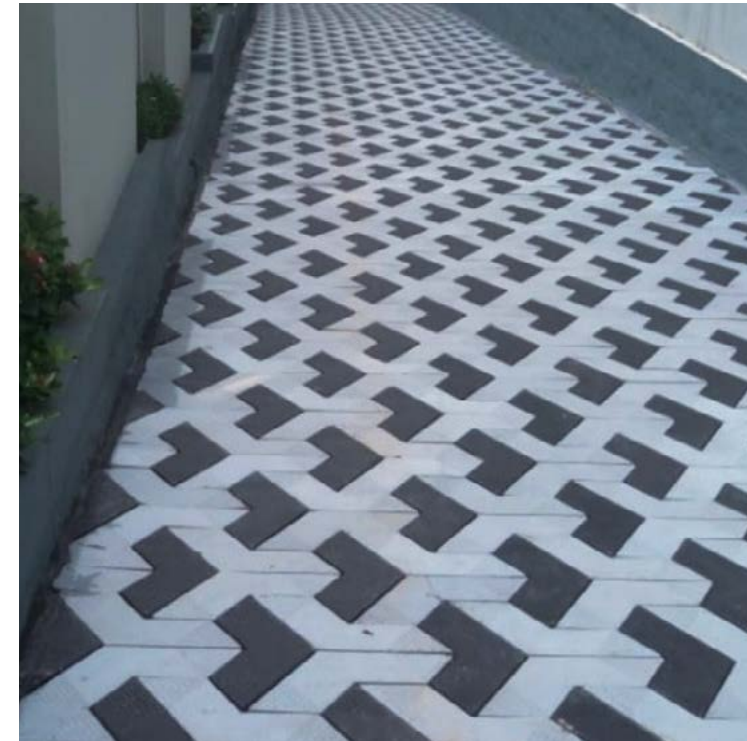

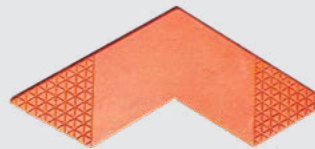

Paver Area : 0.7 Sq.Ft

Height : 65 mm

For 100 Sq.Ft : 143 Mould

3D V
CODE: 3D 02

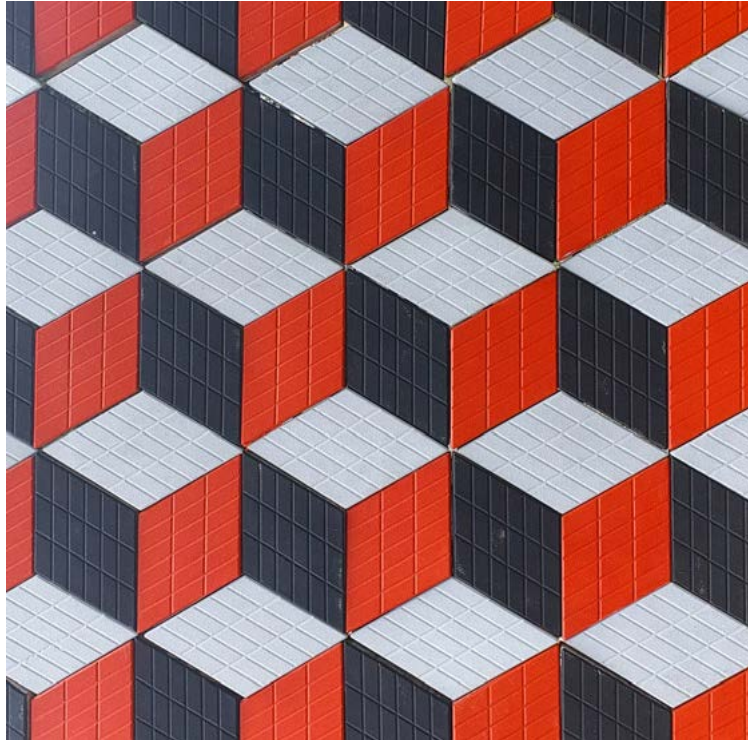

Paver Area : 0.5 Sq.Ft

Height : 65 mm

For 100 Sq.Ft : 200 Mould

3D DIAMOND
CODE: 3D 03

Paver Area : 0.5 Sq.Ft
Height : 65 mm
For 100 Sq.Ft : 200 Mould

3D HALF HEX
CODE: 3D 04

Paver Area : 0.5 Sq.Ft
Height : 65 mm
For 100 Sq.Ft : 200 Mould

NATURAL STONE SERIES

COBBLE STONE 3'3
CODE: CS 01

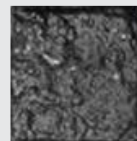

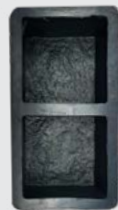

Paver Area : 0.06 Sq.Ft

Height : 65 mm

For 100 Sq.Ft : 417 Mould

COBBLE STONE 4'4
CODE: CS 02

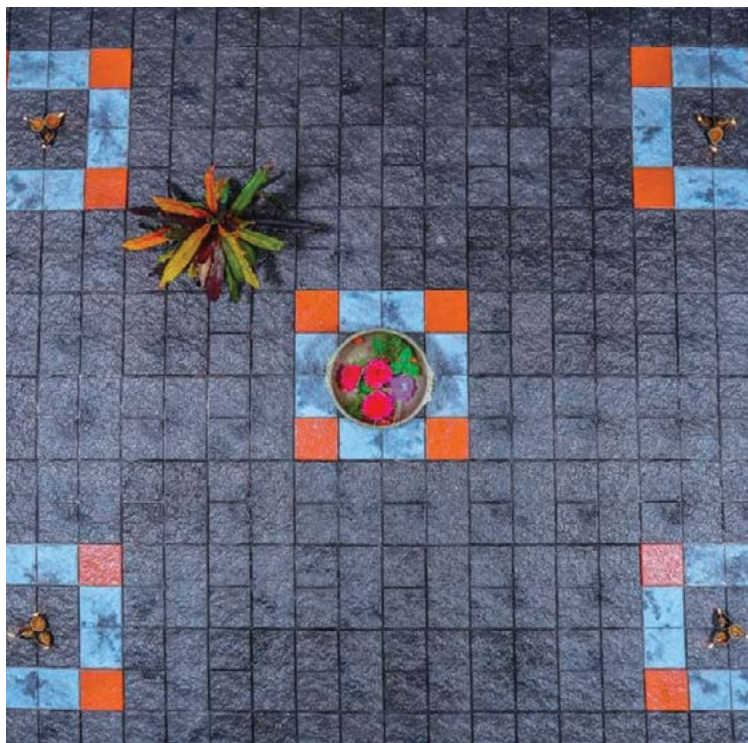

Paver Area : 0.11 Sq.Ft

Height : 65 mm

For 100 Sq.Ft : 455 Mould

STONE 12'6
CODE: NS 04

Paver Area : 0.5 Sq.Ft

Height : 65 mm

For 100 Sq.Ft : 200 Mould

STONE 6'6
CODE: NS 05

Paver Area : 0.25 Sq.Ft

Height : 65 mm

For 100 Sq.Ft : 200 Mould
